

# When it comes to COVID-19 testing, you've got options

## Care that puts your health and safety first

If you think you have symptoms of COVID-19, Humana can help you understand if you meet CDC testing guidelines and then provide easy access to COVID-19 testing as you need it.

We will help coordinate a nasal swab test through an at-home kit or at a testing location—whichever you feel is most convenient and safest for your needs.

We want the experience to be as easy as possible. Helping you feel taken care of and informed about all the details of your health is one part of what we call human care.

### Take this simple assessment

If you feel like you are experiencing symptoms relative to COVID-19 (cough, shortness of breath, or fever), take a short assessment at [Humana.com/coronavirus](https://www.humana.com/coronavirus).

#### Getting the at-home kit

Humana has contracted with LabCorp to offer **at-home testing**

- Kit with instructions will be mailed to your home within 1 business day
- Collect your own sample
- Results available 1–3 days after sample received at lab
- Not available for Puerto Rico residents or anyone under age 18

#### Visiting a testing location

Humana has contracted with several **testing locations**

- Nearest in-network testing site will be located for your convenience
- Testing will be performed at a testing site with a care professional
- Results available 7–10 days after sample collection
