

COVID-19 TESTING

 COVID-19 testing, even in asymptomatic beneficiaries, is covered for Active Duty Service Members (ADSM), including service academy students, as long as the test is ordered by a TRICARE-authorized provider.

Finding a TRICARE-authorized provider

Visit [HumanaMilitary.com/findcare](https://www.humana.com/military/findcare) to find a network provider who can perform a COVID-19 test.

From here, you can search by specialty and location for a provider in your area. If you are uncertain about provider specialty, providers at urgent care centers should be able to assist. If you already have a prescription for a test from your provider, you can schedule the test at a local LabCorp or Quest Diagnostics office in your area.

Visit [HumanaMilitary.com/coronavirus](https://www.humana.com/military/coronavirus) for additional resources, including Frequently Asked Questions (FAQ) and benefit guidance.
