

Important information about Indy Health

Please be advised of the following information from the Centers for Medicare & Medicaid Services (CMS):

Effective immediately, Medicare's Part D LI-NET program (administered by Humana) will provide prescription drug coverage for all former Indy Health Insurance Co. members. Most members will have retroactive coverage effective March 1, 2021. For members who would have enrolled in Indy Health effective April 1, 2021, their LI-NET coverage will start April 1, 2021.

LI-NET coverage will be temporary, to give members time to choose a new prescription drug plan. LI-NET is working to process enrollments for impacted members as quickly as possible. We appreciate your patience.

How to submit claims

Submit claims for former Indy Health members to LI-NET using the following information:

- **BIN:** 015599
- **PCN:** 05440000
- **Cardholder ID:** Medicare Number located on the red, white and blue Medicare card
- **Group ID:** (may be left blank)
- **Patient ID:** (optional) Medicaid ID or Social Security number

If you tried to submit a claim and got a rejection from Indy Health, please resubmit your claim using the information above.

Patient reimbursement

Patients who paid out of pocket for their medications from March 1 to March 24 can ask for reimbursement through LI-NET. Patients should complete, print and mail the Direct Member Reimbursement (DMR) Form located at [Humana.com/LINET](https://www.humana.com/LINET). They can find this form at the bottom of the page under "Resources for beneficiaries." If the patient paid out-of-pocket for medications from March 1 to March 24, they may also ask the pharmacy to rebill the prescription to LI-NET.

Questions?

Contact the LI-NET help desk at **800-783-1307**, Monday – Friday, 8 a.m. to 7 p.m. Eastern Time.
